## Summary

I am Mohsen, An Agile Product Manager, Scrum Master, and Agile Coach with a successful product/project management history. Highly skilled in collaborating with team members to achieve business and financial goals. In addition to learning more and more about successful Agile methods. On top of these, I am responsible for the project's key-stakeholders and build up an Agile culture on start-up steam. My aim is to transfer my knowledge and experiences in Agile Project Management helping such Startups thrive quicker and stronger. So, I co-operated with some Startups and coach them on implementing project management solutions based on Agile frameworks. In the end, I have some experiences in journalism and writing content in some famous media in my country when I was younger.

Also, this version of my resume is a summary and you can see my full resume on LinkedIn or my Personal website.

## Experience

### Scrum Master

Dotin

Sep 2019 - Present (1 year 7 months +)

In DotinCo. I work as a Scrum Master and helping the Internet Bank, Telephone Bank, and MBS teams to maximize the values that were created to the customers.

Pasargad Bank & Tourism Bank are some of our customers.

I'm qualifying to achieve a new position in this company as an Agile coach.

### Product Manager

Digiato

Jul 2020 - Present (9 months +)

Digiato is one of the Iranian popular websites in technology; due to its independence and lightning-fast broadcasting it has been able to obtain a huge community of loyal fans for itself and as a result, now the website is an influential player in Iran's market. In addition to national and international news coverage in the IT sector and has more than 10 million visits per month.

I work as a part-time product manager at digiatio and sharing my expertise in three different sites (Digiato, Vigiato, and Rooziato).

### Product Manager

SnappTrip

Sep 2017 - Apr 2018 (8 months)

The SnappTrip (one of the Rocket Internet and MTN' holding in Iran ventures) is an online hotel and travel booking service and we'll try to make good experience whose travel to IRAN by four different product line like B2B (the Tehran's office of McKinsey, Huawei, and Siemens some of our B2B's customers), B2C, flight and core service. Reporting directly to CEO and the Head of Product, I am responsible for designing, improving and managing both new and ongoing product lines (independent of the platform) and also I improved 12% of the payment success ratio and 13% of the fulfilment. I've done

other tasks like A/B Testing to improve the search results, and we've learned a lot from the failures that we've had.

### **Product Manager**

Jan 2013 - Jan 2014 (1 year 1 month)
